WPC(PVC)发泡板

WPC(PVC) Foam Board

Product features

Good Flexibility

Good Hardness

Accurate Thickness

Waterproof

Advantages & Characters-

Environmental Friendly:

- *No any benzene and the formaldehyde discharge, Non-toxic
- *Sound-insulated

Energy Saving:

- *Made from the waste lumber, so can get high-usage of the lumber
- *High recyclable, eco-friendly, saving forest resources

Good Appearance:

- *The surface is smooth
- *with the look of the natural wood but less timber problems
- *Amazing colors and rich in colors. High glossy and matte is available

Adaptability

- *Waterproof, no moisture absorption, no mildew, less rotten, proven under salt water condition
 - *Weather resistant, suitable from minus - 30 to 90 centigrade degree, non-deformation
 - *Fire retardant and self-extinguishing, automatically extinguish by itself and meet the standard of GB/B1
 - *Heat insulation and heat preservation, In the physical characteristics, it has a low thermal conductivity as the lumber, which means it can prevent heat in summer and keep heat in winter.
 - *Borer proof, WPC can get rid of insect, Well done of termites and so on
 - *Perfect chemical resistance, good resistance to light and UV
- #### Good Mechanical Performance:
- *Easy to cut, easy to be edge-covered in machine
 - *Easy to nail, hammered, drilled, sawed, turned, glued, bended, printed, oiled, thermoforming
 - *Easy to clean
 - *Tough, rigid with the high impact strength, less crack, less break and less warping
 - *Requires no painting, Stable color retention, no glue, low maintenance

木塑家具板 WPC Furniture Board

木塑家具板 WPC Furniture Board

WPC FOAM BOARD

- HPL film Surface
- Acrylic film Surface
- PVC film Surface
- Hot Stamping film Surface

Application:

- Furniture board
- Cabinet board
- Door board
- Decoration board

Specification:

- Size: 1220*2440mm
- Base Board: WPC FOAM BOARD
- Surface: Lamination or hot stamping
- Thickness: 3-20mm
- Density: 0.5-0.7g/cm3

Surface with HPL film, PVC film, Acrylic film, hot stamping film

木塑建筑模板 WPC Shuttering Board

木塑建筑模板 WPC Shuttering Board

WPC Formwork Panel Building Templates

Specification:

Size: 1220*2440mm, 915*1830mm

Thickness: 6-20mm

Density: 0.7/0.75g/cm³

Color: Dark green, black, red, white

Advantages in building construction- formwork board

1. Easy to take off from the concrete. Concrete won't be sticky to this kind of board.
2. Adjustable size. The board size is adjustable according to the requirement from the builder.
3. Shiny and Smooth surface. The concrete is with smooth surface after stripped.
4. Steady quality. The wpc board is with very good mechanical strength, it can work well in -20 to 100 degree.
5. Easy to install and save labor. It is in light weight and can be processed to any shape and size, save labor.
6. Product attribution is good. wpc board is antiseptic, inflaming retarding and waterproof.
7. Energy saving and environment protect.
8. Lower cost. Turnover can be up to over 20-30 times, so deeply reduce the cost.

石塑板 (室内装饰板) SPC Board (Interior)

石塑板 (室内装饰板) SPC Board (Interior)

Instead of natural marble, used for wall decoration.

Marble Texture Surface

—Wall Panel—

产品规格 / Products Specification		
厚度 / Thickness	宽度 / Width	长度 / Length
2.7mm,3mm,4mm	1220 mm	2440 mm

REMARK : Specific conditions which can be produce other specification sheet according to special requirements

- 1) Non flammability:PVC decorative board is non-flammable and conforms to the national grade
- 2) Water-proofing and moisture-proofing: The product is allowed to long-term expose to moist environment.
- 3) Problem free PVC decorative board provides good insulation against bugs, fungus and corrosion. It can last for a long-time and will not corrode.
- 4) It is glossy, wear-resistant, easy clean, the hardness can reach 3H-6H.
- 5) The weight is only one fifth for the natural marble, and price is one tenth of the natural marble.

集成墙板

Integrated Wall Panel

集成墙板

Integrated Wall Panel

WPC / SPC

Wall & Ceiling

Fashion Style

Material: WPC(Bamboo fiber)
Available Width: 300mm, 600mm
Thickness: 9mm

Standard Length: 3meters, 2.8meters (other length please advise us)

Surface treatment: PVC Film laminated

Color: see color card

Application: Interior Wall Panel, Ceiling Panel, Decoration Panel

The integration fast installation wall panel not only has the surface of natural wood, but also overcomes the disadvantages of natural wood. It's also easy to be processed, the same with wood, can be sawed, nailed, planed, just by the carpenters' tools, and better nail-holding ability than usual normal wood; and has the same compressive property, impact resistance with hard wood, much more durable than normal wood. WPC and its products, are anti-corrosive alkali, waterproof, not breeding bacteria, insect prevention; anti-aging, anti-static, antifiame. The integration wall panel not only has the colorful patterns the same with wallpaper, painting, but also has strong third dimension and sense of concavo-convex, is a substitute product of wallpaper and painting.

Characters & Advantages
